

LOUISVILLE AND JEFFERSON COUNTY INFORMATION CONSORTIUM

Commercial Fee Schedule

for GIS and Database Services

June 25, 2026

1. **LOJIC On-Demand:** Online, self-service portal for the purchase of data extraction, conversion, and delivery services. This application extracts a predefined set of digital data layers, converts them to AutoCAD (.dwg) and/or ESRI (.shp) format, and delivers a download link to the customer via email.

Purchases based on selection of grid tiles. Each tile measures 500'x500' (≈5.74 acres) and the customer may select up to 20 tiles per order.

\$50/Tile

Each tile delivered will contain the following data layers:

- ▶ **LOJIC Planimetric and Topographic Layers:**
 - Airports
 - Buildings*
 - Contours (2' Interval)*
 - Hydrographic Lines/Waterbodies*
 - Miscellaneous Structures
 - Miscellaneous Transportation
 - Railroads*
 - Recreation Features
 - Roads (Edge of Pavement)*
 - Spot Heights*
 - Utility Points (High Tension)
 - Vegetation (Tree Canopy)
- ▶ **MSD Layers (Always delivered as .shp files):**
 - Drainage Mains*
 - Local Regulatory Floodplain
 - Sewer Mains*
- ▶ **FEMA 100-year Floodplain**
- ▶ **Jefferson County PVA Parcel geometry with lot numbers and dimensions (no owner information)**
- ▶ **Site Addresses and Street Centerlines (maintained by Louisville Metro Government)**
- ▶ **Zoning (maintained by Louisville Metro Government)**
- ▶ **2024 Aerial Photography (.TIFF)***

Note: Any layer referenced above with an asterisk () is also available in Bullitt and Oldham Counties.*
